

M E M O R A N D U M

TO: John Cooper  
FROM: Tim Runyon   
DATE: September 14, 1988  
SUBJECT: Silbert Dial Company of Elgin, Illinois.

In our July 7, 1988 telephone conversation, Mr. Roger Jadown, an architect representing Drs. Berkson and Herbstman, speculated that the doctors would file suit against Mrs. M. J. Silbert over the radium contamination remaining at the Silbert Watch Dial site in Elgin, Illinois. According to the attached article from the Elgin Courier, the suit has been filed and our legal staff should probably be prepared to discuss the situation with lawyers representing either party.

As I mentioned in my memo dated July 18, 1988, I have the only copy of the registration file (#08225) in my possession. We may want to have the legal staff review the file and then have a short meeting with them regarding our response to questions.
